\*Points are awarded based on finish position in race and number of riders on track. ie 12 in race, finishing 1st would give 12 points, 2nd-11points etc. 20 in a race would give 20 points for 1st.

This is to keep it fair across each class. All novice are eligible for championship points in their own classes in addition to the novice championship. If a novice enters more than one class, their highest finishing class has been used.
